

24 June 2021

## **ANNOUNCEMENT**

### **Mid-Year Pricing Adjustments**

Dear Lycoming Customer,

Lycoming is committed to providing you with the quality products and services you have come to expect. We continue to engage internally and externally to increase supply, drive costs out of our operations, and resource across multiple means to meet your needs. However, inflation across costs associated with components, surcharge increases, and ongoing availability have impacted our business.

Therefore, Lycoming is implementing a price adjustment to ensure that we maintain our current operational activities to effectively serve our customers. New pricing will become effective for all orders received or updated after Close of Business (COB) – 5PM Eastern Standard Time - on July 23, 2021.

Orders at current 2021 prices will be accepted until 5PM Eastern Standard Time July 23, 2021; provided such orders specify immediate delivery. Any order received on or prior to July 23, 2021 with a requested shipment date later than July 23, 2021 will be subject to the new pricing.

### **NO PRINTED PRICE LISTS WILL BE PROVIDED**

The following aftermarket pricing material are included with this announcement:

- 2021 Aftermarket Engine Price List (Excel and PDF format)
- 2021 Spare Parts Price List (Excel and PDF format)

If you have any questions or problems opening these files, please contact your Account Service Representative and Regional Sales Manager for assistance.

Sincerely,

Shannon Massey  
Senior Vice President
