ANNOUNCEMENT

Q1 2022 Price Adjustments

Dear Valued Lycoming Product Distribution Partner,

Lycoming remains fully committed and focused on providing quality products and services, with reduced lead-times, to our mutual and valued customer base. As such, we continue to engage internally and externally to increase material supply and our manufacturing rates. However, inflation costs associated with raw material and component supply, manufacturing moves, prioritization and expedite fees, as well as shipping rate increases, result in the need for Lycoming to adjust prices at this time.

Lycoming Aftermarket Service Engine Flat Rate Shipping Fee – Domestic Only

Lycoming's Flat Rate Domestic Engine Shipping Fee needs to increase from \$239 to \$375 for any, and all, open and new orders that have a scheduled ship date, or recovery ship date, after March 4, 2022. Please review your open engine orders and begin working with your Account Service Representative to revise any applicable Aftermarket Service Engine POs at this time; by updating your POs to reflect Lycoming's Revised Domestic Engine Shipping Fee -or- by providing your company's direct account number for your preferred domestic freight carrier.

Lycoming Aftermarket Service Engines, Spare Parts & Cylinder Kit Pricing

Orders at current 2022 prices will be accepted until 5PM Eastern Standard Time March 4, 2022; provided such orders specify immediate delivery. Any order received on or prior to March 4, 2022 with a requested shipment date later than March 4, 2022 will be subject to the new pricing.

NO PRINTED PRICE LISTS WILL BE PROVIDED

The following aftermarket pricing material are included with this announcement:

- 2022 Aftermarket Engine Price List (Excel and PDF format)
 - *Note: Revised (Domestic Only) Flat Rate Engine Shipping Fee Listed Within*
- 2022 Spare Parts Price List (Excel and PDF format)

If you have any questions or problems opening these files, please contact your Account Service Representative and Regional Sales Manager for assistance.

Sincerely,

Aaron Spotts
